The British fleet will mainly | will be a long and bloody one. operate in the Black Sea, effecting two purposes thereby: First, it will cut off communication of the ports of the Black Sea, as Odessa, Sevas- Three in London—Buckingham, St. topol, &c., with the Russian army James and Kensington. Her out-in Roumelia. This would be a seri-of-town palaces are at Windsor, Osous blow to that army, for it is cer- borne, Isle of Wight, and at Balmotain that, in case of the Russo-Turkish war having continued through the winter just ending, that is the avenue of supply upon which the Russians had depended, the Danube having been found altogether impracticable as a base. It is not improbable that this one circumstance alone might compel the withdrawal of the Russian army from before Constantinople without a gun being fired. The British fleet could also prevent the occupation by the Rus- ceptions, its large suite of state sians of those positions on the east and northeast coasts of the Black Sea which Russia esteems as the

casus, such as Batoum, Sukham, Kaleh, &c. Let us before going further examine what are the resources of the country for carrying out this purpose. Sir Garnet Wolseley, the officer who has been designated to the command of the British forces an article to the March number of years ago, but is now partly used as in the event of war, has contributed an English magazine called The Nineteenth Century, in which he compares the military resources of Great Britain in the present day with those which she possessed in 1854, just before the Crimean war, from which we extract the following
